

Appalachian Farms

App Farms saves staff time and workers money with Yepzy

“Working with Yepzy has been a difference maker for our farm and our workers as we have had challenges in the past with pay cards, local banks, and paper checks as options to pay our H2A workers. With Yepzy, we pay our workers through a weekly direct deposit to each of their Yepzy financial accounts. At that point, our workers have full access to their money through their Yepzy Visa debit cards which can be used anywhere in the world Visa is accepted, and they can easily and affordably send money back their families in Mexico from their Yepzy app on their smartphones.

The Yepzy platform not only saves our office staff valuable time while saving money for our hardworking guest workers. The Yepzy onboarding team has been fantastic, providing excellent bilingual support every step of the way. Overall, our experience with Yepzy has been nothing short of exceptional. We highly recommend Yepzy to any farm looking to streamline their payroll processes and improve efficiency.”

- Matthew Horney, Co-owner

About App Farms

Appalachian Farms of Cranberry is a family owned and operated wholesale nursery with a family background strong in the agricultural business. The combined experience of Cale Smith and Matthew Horney have made Appalachian Farms of Cranberry what it is today. Both Cale’s and Matthew’s grandfathers were in the Christmas tree and nursery business. Growing up and working around this type of business gave Cale and Matthew the knowledge and experience to develop Appalachian Farms of Cranberry into one of the main nursery growers/wholesalers in western North Carolina.
